EUROPEAN FRAMEWORK (1)

Definition & main documents

'Micro-credential' means the record of the learning outcomes (usually in the form of a digital badge) that a learner has acquired following a small volume of learning.

Learning experiences leading to micro-credentials are designed to provide the learner with specific **knowledge, skills and competences** that respond to societal, personal, cultural or labour market needs. Micro-credentials are **owned by the learner, can be shared and are portable**. They may be **stand-alone or combined** into larger credentials. They are underpinned by **quality assurance** following agreed standards in the relevant sector or area of activity.

MICs can refer both to the record or to the short course leading to it (others prefer for this 'micro-module')

EUROPEAN FRAMEWORK (2)

The credential (digital badge)

Micro-credentials: mandatory and optional elements
Recomm. June 2022

Mandatory elements

- Identification of the learner
- Title of the micro-credential
- Country/Region of the issuer
- Awarding body
- Date of issuing
- Learning outcomes
- Notional workload needed to achieve the learning outcomes (in ECTS credits, wherever possible)
- Level (and cycle, if applicable) of the learning experience leading to the micro-credential (EQF, QF-EHEA), if applicable
- Type of assessment
- Form of participation in the learning activity
- Type of quality assurance used to underpin the micro-credential

Optional elements, where relevant (non-exhaustive list)

- Prerequisites needed to enrol in the learning activity
- Supervision and identity verification during assessment (unsupervised with no identity verification, supervised with no identity verification, supervised online or onsite with identity verification)
- Grade achieved
- Integration/stackability options (standalone, independent micro-credential / integrated, stackable towards another credential)
- Further information

Basically 6 (Bach),
7 (Mast), 8 (PhD)

EUROPEAN FRAMEWORK (3)

The ten principles

Micro-credentials: ten principles for designing and issuing micro-credentials

Recomm. June 2022

1. **Quality** (primarily, assessment of providers / internal quality assurance procedures).
2. **Transparency** (cf. Mandatory elements + ECTS, European Qualifications Framework / EQF, Database of External Quality Assurance Results / DEQAR, Europass).
3. **Relevance** (collaboration with users and stakeholders).
4. **Valid assessment.**
5. **Learning paths** (to support flexible learning pathways).
6. **Recognition** (recognized for academic or employment purposes)
7. **Portable** (learner owned, storable, stackable and easy to share. Cf. **Europass**).
8. **Learner centred** (learners feedback)
9. **Authentic** (relevant learner's and issuer's info,...)
10. **Information and guidance** (supporting education, training and career choices)

EUROPEAN FRAMEWORK (4)

The platform for credentials

Europass & European Learning Model ELM v. 3

Europass

Europass Digital Credentials Infrastructure (EDCI): to enable efficient and secure recognition across Europe of qualifications or other learning outcomes. **Europass:** a free set of online tools to manage skills, and plan a learning and career in Europe (creating a free profile of skills, qualifications and experiences in online location).

<https://europa.eu/europass/en/what-are-digital-credentials>

European Learning Model (ELM): a multilingual Data Model for Interoperability of Learning Opportunities, Qualifications, Accreditation and Credentials in Europe, developed by the European Commission.

The European Learning Model aims to capture the results of any non-formal and formal learning across Europe, as well as the validation of non-formal and informal learning. It is designed to provide a single format to describe certificates of attendance, examination results, degrees and diplomas, diploma supplements, professional certifications, employer recommendations and any other kind of claims that are related to learning.

Contents: Didactic units in progression of difficulty according to the Curricular Plan of the Cervantes Institute (https://cvc.cervantes.es/ensenanza/biblioteca_ele/plan_curricular/).

Duration: 3 ECTS (= 75 hours in total). These hours should include both tasks they perform and also the preparation, study, dedicated time to the evaluation...

Modality: 100% synchronous and asynchronous online.

Type of implementation: In final stages of development.

Location: UNITA Moodle.

Recipients: any student (5-6-7-8, Bachelor, Master & 3rd grade), teacher or administrative staff of the UNITA Alliance.

Assessment: active attendance (minimum 85%), accomplishment of the activities and final exam evaluating the 4 skills (reading comprehension, listening comprehension, written production and interaction, oral production and interaction).

Certification: certificate of attendance and achievement + digital badge.

Language: Spanish

Some challenges

- *MCs Quality assurance: a common procedure for all UNITA universities (including some quality standards and tools, and surveys for teachers / students / stakeholders) ? External assesement?*
- *Involving stakeholders (companies, institutions, associations,...) in the identification, design (and teaching?) of forthcoming MCs – Challenge based MCs?*
