The Andalusian Education System

Focus on Vocational Education and Training

Behind the diplomas

The profile of each Diploma takes as a reference the occupational standards established in the National Qualification Framework and describes what professionals do in the different occupations.

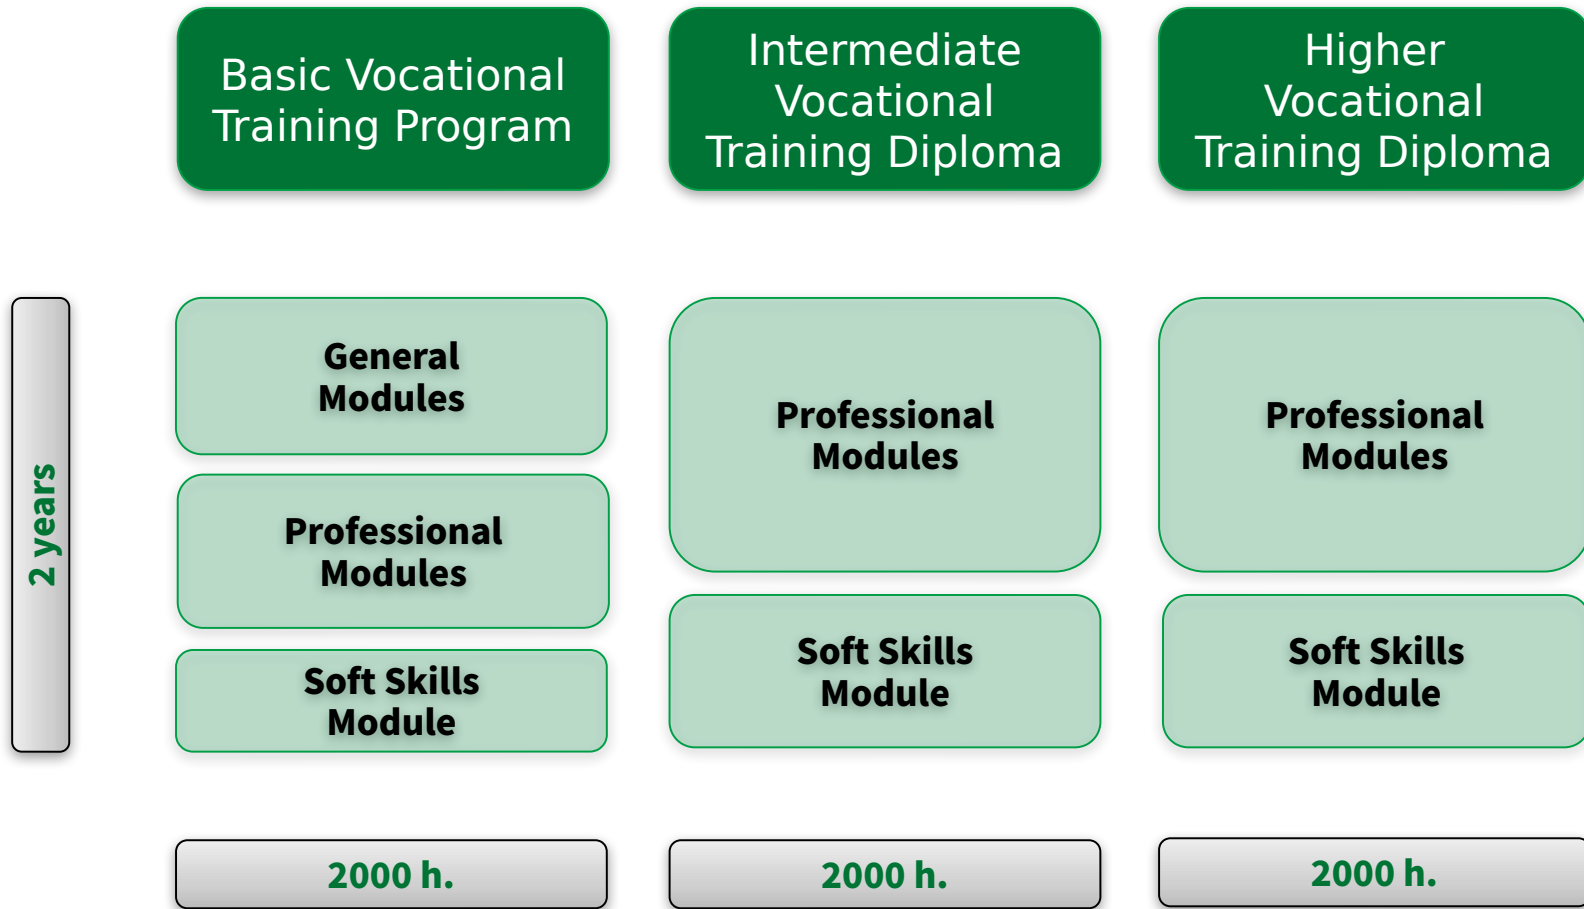

The training necessary to match the established professional profile, the corresponding educational level and the competences needs of personal, social and cross-cutting character are also defined in each module.

Level Qualification

	Basic Vocational Training Program	Intermediate Vocational Training Diploma	Higher Vocational Training Diploma
qualification level	Level 1-2 Basic factual knowledge of a field of work	Level 3 Knowledge of facts, principles, processes and general concepts, in a field of work	Level 4-5 Factual and theoretical knowledge in broad contexts within a field of work
access from/to	From: 3rt year of ESO To: Intermediate VET Grade	From: ESO Degree To: High VET Grade	From: Intermediate VET High School Degree To: University
degree	Professional Qualification	Technical Diploma	High Technical Diploma

The diplomas structure

The diplomas structure

Programmes contains:

Different modules with the needed **training associated to the professional profile**.

An **Intermodular Project** to consolidate the skills acquired in each of the rest of the modules.

A module on “**Personal itinerary for employability**” that deals with labor legislation and occupational health and safety, and different soft skills.

Three modules that deal with **Sustainability, Digitalization** and the **English language**, all of them specific for each professional area.

Dual VET System

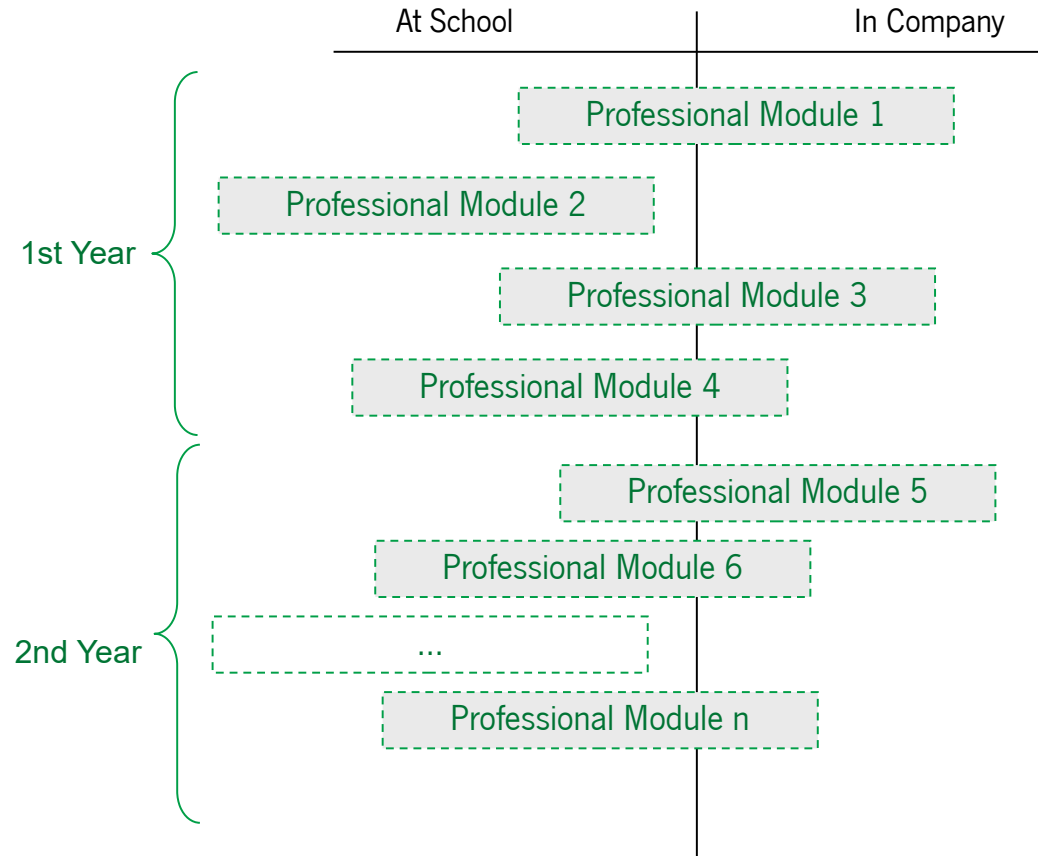

From traditional VET programmes...

...to Dual VET programmes

Characteristics of Dual VET programmes

Total length: 2 years (occasionally 3 years).

Dual training: Two options: intensive modality (between 35% and 50% of the total length) or general modality (between 25% and 35% of the total length).

Rigor: The way of organizing allows to ensure the acquisition of skills.

Flexibility: Each situation is different, depending on the Training Programme, the School and the participating companies.

Initial training: all projects must include an initial training school at least one term for the first year (specially labour risk prevention).

The goals

Increase the employment rate.

Increase the rate of self-employment.

Reducing the rate of early school leaving.

Provide a more updated training.

Improve the relationship between schools and businesses.
