EU Login - European Commission Authentication Service
User Guide
EU Login - European Commission Authentication Service

Two Factor Authentication

As of Monday 8th of June 2020, 2 factor authentication is required to access certain European Commission services, such as the Erasmus+ and European Solidarity Corps IT Documentation and the NAconnECT Wiki. For instructions on how to install and set up the EU Login Mobile App see below.

- What is EU Login?
- How to use EU Login?
  - URL
  - General "EU Login" screen
  - Create a new "EU Login" account
    - Click the "Create an account" hyperlink
    - Fill in the required details and click "Create Account"
    - Click the password creation link in your activation e-mail
    - Create your password and "Proceed" to login
  - Sign in to "EU Login" (previously ECAS) account
    - Sign in with e-mail and password - To access tools such as Organisation Registration system, Application Forms, Mobility Tool+ or OEET
  - Set up 2 Factor Authentication with the EU Login Mobile app - For access to IT Documentation and Project Results platform
    - The EU Login Mobile app
    - Initialise the EU Login Mobile App with your mobile device
    - Sign in with an EU Login account using the EU Login Mobile App PIN code - To access IT Documentation
    - Sign in with an EU Login account using the EU Login Mobile App QR code - To access IT Documentation and Project Results platform
  - Set up 2 Factor Authentication with your mobile number - For access to IT Documentation and Project Results platform
    - Sign in with an EU Login account using Mobile Phone + SMS - To access IT Documentation and Project Results platform
  - Sign in with an EU Login account using On Mobile authentication
  - Forgotten password?
  - Help and Frequently asked questions
  - My Account
    - My account details
    - Modify my personal data
    - Manage my Security Keys and Trusted Platforms
    - Manage my mobile phone numbers
    - Add a mobile device
    - Display my sessions
    - Link eID
    - Delete all my devices and eID (PANIC)
  - Change password
  - Delete EU Login account
What is EU Login?

The EU Login authentication service (previously ECAS) is a point for user authentication to a wide range of Commission information systems.

Information

If you already have an ECAS account, you don’t have to create a new EU Login account. In EU Login, your credentials and personal data remain unchanged. You can still access the same services and applications as before. You just need to use your e-mail address for logging in.

Please note:

It is the first step before registering as an organisation or individual when accessing certain IT Tools such as the Organisation Registration system, Application forms, Mobility Tool+ or OEET.

Every time you want to use a website that requires EU Login authentication, you will automatically be transferred to the EU Login page, where you will be asked to enter your username and password.

Depending on the security level required by the application the user is accessing, single-factor (username + password) or multi-factor (username + password + challenge) authentication will have to be provided by the user. Tools such as the Organisation Registration system, Application forms, Mobility Tool+ or OEET will only require single-factor authentication. The access to Erasmus+ & European Solidarity Corps IT Documentation, Sport IT Documentation, ESC IT Documentation and the Project Results platform will require multi-factor authentication. Tools requiring multi-factor authentication will not have the password option available in the Choose your verification method drop-down list.

Information

If you are a new user, before you register as an organisation or individual, you must have an EU Login account. The account will become inactive after 6 months if not used, but is still accessible and you will be prompted to create a new password should you try to logon after those six months.
How to use EU Login?

**URL**

If you don't have an EU Login account please use the following link [https://webgate.ec.europa.eu/cas/eim/external/register.cgi](https://webgate.ec.europa.eu/cas/eim/external/register.cgi)

If you already have an user account for EU Login please login via [https://webgate.ec.europa.eu/cas/login](https://webgate.ec.europa.eu/cas/login)

**General "EU Login" screen**

1. **Cookies notification**
   EU Login uses cookies to allow you to log in to different applications without re-entering your e-mail address and password each time. Once you have logged into EU Login you will **not** have to identify yourself again as long as you leave your browser open. If you have chosen the option to **not** to accept such cookies, you will not benefit from this feature. The cookies are ‘per-session’ cookies, i.e. they are destroyed when you close your browser.

2. **"Where is ECAS?"** information button. The old ECAS authentication service has been redesigned and renamed as EU Login. Click the **Where is ECAS** button to get more information about the update.

3. **Language Selector.** The EU Login screens are offered in all official languages of the EU. Use the drop-down menu in order to switch between languages.

4. If you already have an EU Login account, use your **e-mail address to sign in.**

5. If you don't have an account yet, you can create one by clicking on the **Create an account** hyperlink.

6. The EU Login offers the possibility to **authenticate using a social media** (Facebook, Twitter and Google) in order to access European Commission applications without having to create a specific EU Login account. This option is only available for external users and is not yet enabled for all applications open to the public.

**Take note**

IT tools that are used in the **Erasmus+ and European Solidarity Corps** programmes do not support the authentication via social media.
7. If you wish to link your eID (electronic ID) to your EU Login account, click on the Select your country button.

Take note

IT tools that are used in the Erasmus+ and European Solidarity Corps programmes do not support the authentication using eID.

8. Access to download and install the EU Login app for your mobile devices.

9. Links to About EU Login, Cookies policy, Privacy Statement, Contact information and Help.
Create a new “EU Login” account

Click the “Create an account” hyperlink

In order to create a new account, click on the Create an account hyperlink.

Information

If you already have an ECAS account, you don’t have to create a new EU Login account. In EU Login, your credentials and personal data remain unchanged. You can still access the same services and applications as before. You just need to use your e-mail address for logging in.

Fill in the required details and click “Create Account”

1. First name - Insert your first name.
2. Last name - Insert your last name.
3. E-mail - Insert your e-mail address. Please remember this must be the same e-mail address provided to the National Agency or DG EAC (for example in your Project Application Form) and it should be valid and active.
4. Confirm e-mail - Confirm with the same e-mail address above.
5. E-mail language - Choose the language from the drop-down menu.
6. Enter the Captcha code - Enter the Captcha code visible on the screen in the field. If the code is illegible, click the refresh button for another code, or click the play button to listen to an audio version of the code.
7. Privacy Statement check-box - This check-box must be clicked before creating an account.
8. Create account button: Once you have filled in the details, click on the Create an account button.
9. Confirmation: A confirmation is displayed, confirming the registration.

If the form is correctly filled in, an e-mail is sent to the address you provided in order to verify that you have access to it. After a couple of seconds, you should receive an e-mail in your mailbox. If you cannot find the e-mail, check your spam or junk folder.
Click the password creation link in your activation e-mail

Once you have registered, you will receive an e-mail with your **username** and a link for creating your **EU Login password**.

Click on the link in your e-mail.

**Take note**

You have a **maximum of 24 hours**, starting from the time that the message was sent, to create the password. You are advised to do so immediately, if possible. If you do not react within the 24 hours, you can make another request by following the same link; you will need to provide your username again and confirm your request. It may take up to 5 minutes after reception of this mail before the site will recognise your registration.

Create your password and "Proceed" to login

Once you click on the link, a new screen will open, allowing you to create your password.

1. Enter and confirm your password. Select a password as long and as complex as you can in order to make your account more secure.
2. Click on the **Submit** button.
3. Click on the **Proceed** button in order to log in to EU Login. A new screen will open informing you about successful login to EU Login.

**Information**

**Remember that the password:**

- must be at least 10 characters long,
- may not contain your username (login) or any part of your full name,
- must be changed every 3 months (a reminder is automatically sent 15 days before the expiry date)
- should never be the same as any of your last 5 passwords.
Sign in to "EU Login" (previously ECAS) account

Once your EU Login account is created, you can use it to access a multitude of services. While accessing these services, the EU Login screen will display whenever authentication is needed.

Sign in with e-mail and password - To access tools such as Organisation Registration system, Application Forms, Mobility Tool+ or OEET

1. Enter your e-mail address and click Next. The e-mail must be the same provided while creating the EU Login account.
2. Enter your EU Login password. Make sure you select the verification method Password.
   Note: If the password option is not available in the drop-down list, the tool requires multi-factor authentication.
3. Click Sign In.
4. After successful login, a Confirmation message displays.
Set up 2 Factor Authentication with the EU Login Mobile app - For access to IT Documentation and Project Results platform

Depending on the security level required by the application you are accessing, single factor (e-mail + password) or multi factor (username + password + challenge) authentication will have to be provided. It is therefore recommended to set up the 2 factor authentication as soon as you have created your EU Login account. If multi factor authentication is required, beside the password you will need to set up an additional verification method from the available options.

Tools requiring 2 factor authentication will not have the password option available in the Choose your verification method drop-down list.

The EU Login Mobile app

The EU Login Mobile App can be used when accessing a service that requires increased security. The EU Login Mobile App is free and can be obtained from the Google Play Store (Android), the App Store (iOS) or the Windows Store (Windows Phone). The direct links are available on the EU Login screen.

After installing it, you need to initialise it. In order to do so, you need a PC in addition to your mobile device.

The EU Login Mobile app offers a variety of options to log in once activated.

1. **EU Login Mobile App PIN code** - If the mobile device where your EU Login Mobile App is installed has internet connectivity then you can use the “EU Login Mobile App PIN Code” verification method.

2. **EU Login Mobile App QR code** - If the mobile device where your EU Login Mobile App is installed does not have internet connectivity then you can use the “EU Login Mobile App QR Code” verification method.

3. **On mobile authentication** - If you are navigating on the same mobile device as the one where the EU Login Mobile App is installed then you can use the "On Mobile" verification method.

The above methods can be used without compelling the user to expose a mobile phone number. Alternatively, you can also use Mobile phone + SMS to log in to the Commission IT systems and services.
Initialise the EU Login Mobile App with your mobile device

To initialise the EU Login Mobile App you need your mobile device and a computer. Download the app on your mobile device. Make sure you allow notifications, otherwise you will not be able to use the app.

On your PC, log in to EU Login with your e-mail address and password.
To access your EU Login account details, click on the **settings** (gear) icon in the upper right corner and click on **My Account**.

The **My Account** page opens. Select **Manage my mobile devices**.

Click on **Add a mobile device**.
Fill in the required information in the **Add a mobile device** screen. You have to provide a **name** for your device and set up a **4 digit PIN** code.

You can pick any name that suits you, such as "My Android tablet", "My iPhone" or "My blue Windows phone". You will be prompted to provide the PIN code when authenticating so make sure you select one that you can easily remember. However, avoid PIN codes that can be easily guessed, such as your birth year or birthday and month.

Click on the **Submit** button.

On your mobile device, open the EU Login Mobile App and select the **Initialise** option. Follow the instructions on screen and allow access to your camera.
The QR code scanner starts on your mobile device and a QR code is displayed on the screen of your PC. Point the camera of your mobile phone to your PC screen until the QR code is recognised. In the Authenticate screen, enter the 4 digit PIN code you set up earlier and click on Authenticate.

A success message displays on your device, confirming the setup of your mobile device with EU Login. Your EU Login Mobile app is successfully initialised and can be used for authenticating. Click on Continue to be redirected to the Welcome screen.

You can now use your mobile device to access the European Commission services that require 2 factor authentication, either by using the 4 digit PIN or by scanning the QR code.

If your device is equipped with Fingerprint recognition (TouchID), an automatic pop up will be displayed to Enable Fingerprint recognition. You can enable this function by clicking on YES. If you do not want to enable Fingerprint recognition, click on SKIP.
Sign in with an EU Login account using the EU Login Mobile App PIN code - To access IT Documentation

Tools requiring multi-factor authentication will not have the password option available in the Choose your verification method drop-down list.

1. Enter your e-mail address and click Next.
2. Select EU Login Mobile App PIN Code as the verification method.
3. Enter your password in the Password field and click on Sign in.
   - If you have more than one device with an initialised EU Login Mobile App, you are asked to select the one you would like to use. This screen does not display if you have only initialised one device.
   - Click on the device using the name you provided.
4. EU Login sends a notification to your mobile device. Tapping on the notification triggers the launch of the EU Login Mobile App.
5. The EU Login Mobile App prompts you to enter your PIN code. Enter your PIN code and tap on Authenticate.
6. This automatically completes the process on your PC that proceeds to the service you requested to use.
Sign in with an EU Login account using the EU Login Mobile App QR code - To access IT Documentation and Project Results platform

Tools requiring multi-factor authentication will not have the password option available in the Choose your verification method drop-down list.

1. Enter your e-mail address and click Next.
2. Select EU Login Mobile App QR Code as the verification method.
3. Enter your password in the Password field and click on Sign in.
4. A QR code is displayed on screen.
5. Start the EU Login Mobile App on the mobile device where it has been previously initialised. Tap on Scan QR Code. The QR code scanner starts on your mobile device. Point the camera of your mobile phone to your PC screen until the QR code is recognised.
6. The EU Login Mobile App displays a one-time password composed of digits and characters.
7. Type the one-time password in the code generated by your app field.
8. Click Sign in to proceed to the service you requested to use.
Set up 2 Factor Authentication with your mobile number - For access to IT Documentation and Project Results platform

Log in to EU Login with your e-mail address and password. To access your EU Login account details, click on the settings (gear) icon in the upper right corner and click on My Account.

1. Click on Manage my mobile phone numbers
2. Add your mobile phone details and click on Add.
3. After your number is added, a challenge code is sent via SMS to your mobile number. Enter this code in the Text message challenge code fields and click on Finalise.
4. Your mobile number is now added to your account and can be used to log in to EU login, if 2 factor authentication is required.

Take note

If you have already installed and initialised the EU Login Mobile App on a device or if you registered another mobile phone number for receiving SMS, you are requested to authenticate using the registered device or phone number.
Sign in with an EU Login account using Mobile Phone + SMS - To access IT Documentation and Project Results platform

Tools requiring multi-factor authentication will not have the password option available in the Choose your verification method drop-down list.

1. Enter your e-mail address and click Next.
2. Select Mobile Phone + SMS as the verification method.
3. Enter your password in the Password field.
4. Enter a previously registered mobile phone number in the Mobile phone field, starting with a plus sign and with the country code. Do not include dots, parenthesis or hyphens.
5. When clicking Sign in, an SMS is sent to your mobile device. The SMS contains a challenge code made of nine characters separated with hyphens (minus sign).
6. Type the challenge you received in the SMS text challenge fields.
7. Click on Sign in to proceed to the service you requested to use.
Sign in with an EU Login account using On Mobile authentication

The **On Mobile verification** method is only available when browsing on a mobile device and should only be used if an EU Login Mobile App has been previously installed and initialised on that same device.

1. Enter your **e-mail address** and click **Next**.
2. Select **On Mobile Authentication** as the verification method and tap on **Sign in**.
3. The **EU Login Mobile App** opens automatically and prompts you to enter your **PIN code**.
4. Enter your **PIN code** and tap on **Authenticate**.
5. If the app is active (in the foreground), it will automatically redirect you to the browser selector.
6. If the app is in the background, a notification is displayed on your device. Please accept this notification to be redirected successfully.
7. You are now successfully authenticated.
   - Click on Default browser to be redirected to your application. This step is only needed for IOS users.

Forgotten password?

If have forgotten your EU Login password, do the following:

1. Click the **Forgot password?** link on the login page, after you entered your e-mail address.
2. Enter the **challenge code**.
3. Click on the **Get a password** button.
4. A confirmation message displays, informing you of the e-mail you will receive with a link to reset your password.
5. In the e-mail, click on the **link to reset your password**.
6. On the opened EU Login page, **enter your new password and confirm**.
7. Click the **Submit** button.
8. Once the password has been changed, click on the **Proceed** button to continue to sign in.
9. Another confirmation message displays after successful connection.

**Take note**

You cannot reset your password if your account is locked. This happens if too many incorrect passwords are entered in a row. You will not be able to log in or reset your password during this period. Wait 15 minutes until the account is automatically unlocked.
EU Login User Guide

EU Login Password Initialisation

To reset your EU Login password, follow these steps:

2. Enter your new password:
   - New Password
   - Confirm new Password

3. Password requirements:
   - At least 8 characters
   - At least one character from each of the following four character groups:
     - Uppercase A to Z
     - Lowercase a to z
     - Numeric 0 to 9
     - Special characters (Example: !@#$%^&*()_+-=[]{}|;:<>,.?/~` '"

4. Click on "Submit" to save your new password.

5. If you did not make or authorize this request yourself, it may be due to a typing error by another user. To cancel the request, please click here.

6. If the above-mentioned link does not work, you can copy-paste it (without any line breaks) into your browser address bar.

7. If the message is delayed or for some other reason you are unable to complete the rest of the process within 24 hours, please return here to make another request.

8. If you suspect that someone else is trying to obtain or reset your password, please report this to your local support desk.

9. You have successfully changed your EU Login password.
Help and Frequently asked questions

If you need help or need to check the frequently asked questions, click on the Help hyperlink at the bottom of the EU Login page.
My Account

To access your EU Login account details, click on the settings (gear) icon in the upper right corner and click on My Account. This is only possible if you are logged in.

The My Account page opens. Here you can choose a number of options to edit your account details.
My account details

Under **My account details** you find general information about your EU login, such as Username, Unique identifier (uid), Most recent login, Last password reset and more. All information here is read only.

Modify my personal data

Click on **Modify my personal data** to edit your personal details. Here you can amend your personal information, e-mail address and e-mail language as well as e-mail notification settings.

Should you change your e-mail address, please remember to inform your National Agency, DG EAC or the person responsible for providing you access to certain DG EAC IT Tools.
Manage my Security Keys and Trusted Platforms

This feature enables you to manage the Key-ID tokens and trusted platforms you use for 2 factor authentication. Insert the security key into your device.

1. Click on Manage my Security Keys and Trusted Platforms. You may need to authenticate with a stronger authentication method.
2. Click on Add a Security Key or Add a Trusted Platform.
3. Enter a device name and click on Submit.
4. A message will pop up: Credential registration in progress. Your browser will open a popup window to request access to extended information about your authenticator.
5. Click on Proceed. Please do not tick the Anonymise anyway checkbox, otherwise it will not be possible to use this authentication method.
6. Validate the fingerprint on your security key. You will then see a success message: A security key has been added.

Manage my mobile phone numbers

To add a mobile phone number, follow the steps:

1. Click on Manage my mobile phone numbers
2. Add your mobile phone details and click on Add.
3. After your number is added, a challenge code is sent via SMS to your mobile number. Enter this code in the Text message challenge code fields and click on Finalise.
4. Your mobile number is now added to your account and can be used to log in to EU login, if 2 factor authentication is required.

Take note

If you have already installed and initialised the EU Login Mobile App on a device or if you registered another mobile phone number for receiving SMS, you are requested to authenticate using the registered device or phone number.
Remove a mobile number

To remove an already added mobile phone number, access your account. Select the **Manage my mobile phone numbers** and select **Delete a mobile phone number**.

Enter the phone number to be removed and click on **Delete**. Reconfirm the deletion. A success message displays.

Add a mobile device

For information on the **Add a mobile device** option, please see [Set up 2 Factor Authentication with the EU Login Mobile app](#).

Remove a mobile device

To remove an already added mobile device, access your account. Select the **Delete a mobile device option**. If you have more than one device added, select the one you want to remove. Confirm the deletion.

On your device, a notification displays, informing you about unlinking it from your EU login. A success message displays on your PC.
Change EU Login app PIN

To change the EU Login app PIN, select this option. Enter the current PIN set up for your device. Provide the new PIN you want to use and confirm. Submit.

On your device, a notification displays, informing you of the PIN change.
Display my sessions

To see the number of services accessed during your current session, click on **Display my sessions**.
Link eID

To link your eID (electronic ID) to your EU Login account, click on **Link my eID**. This option can link your national electronic identity card to your EU Login account.

**Information**

This option is only available for some countries (see screenshot below) and a card reader is necessary.

**Take note**

IT tools that are used in the Erasmus+ and European Solidarity Corps programmes do **not** support the authentication using eID.
Delete all my devices and eID (PANIC)

If you set up mobile devices and/or eID in your EU login, you have the option to Delete all my devices and eID (PANIC).

Using this option will revoke the options to authenticate using any mobile phone number, mobile device, hardware token or electronic ID linked to your account. You will lose access rights to some applications requiring the 2 factor authentication. You will also be logged out from EU Login.
**Change password**

To change your password:

1. From the EU login page, click the settings (gear) icon and select **Change Password**.
2. Enter your current EU login password.
3. Enter the new password you would like to set up in the respective fields.
4. Click **Change** to save.

**Delete EU Login account**

To delete your EU Login account, click on **Delete your account** and follow the instructions. Please also notify the National Agency or DG EAC that you no longer require access to the DG EAC Tools. If possible or applicable, please mention your replacement.

**Important**

All access rights will be revoked and unrecoverable once deleted.
